* Includes School Psychological Examiner

How to read the table:

Example: There were 50 elementary education/early childhood/early childhood-Special Education graduates in 2022; 48% of them were employed in public Missouri schools the following year.

Placement data are from the Missouri Department of Elementary and Secondary Education. Only completers employed in public Missouri schools are included in these data. Those employed in private schools or out of state are not included in these data. There may be a lag between the year of completion and the year of employment.
