

HOW TO GIVE NONCASH.

Your noncash items could represent thousands of dollars to our organization—no more monthly storage unit fees or unused vehicles taking valuable square footage. We have a new online giving system that allows our organization to process and liquidate almost any kind of quality noncash donation—effortlessly!

We've made it very simple to donate noncash items:

1. Go to our website and click on the give online link.
2. Click on the button that matches type of noncash asset you wish to donate.
3. Complete the online form
4. You will receive an email with instructions for transferring the donation including shipping or pickup coordination information.
5. Click on the Facebook, Twitter, and Email icons to share your donation with your friends and family. You never know what your story might inspire!
6. After the transfer is made, you will receive a Gift-In-Kind receipt for tax purposes. *(Consult with your tax advisor if you have specific tax questions.)*
7. Come back often. After you have donated once, our website will 'remember' you, so you will only need to verify your email address—it really is that simple.

Remember:

- Not all gifts will be accepted. Items must have market value that is higher than the cost to ship, transport and liquidate the item.
- All cars, running or not, will be accepted.
- All donations will receive Gift-In-Kind receipt, unless donating bulk items.
- We do not accept electronics, furniture, clothes or household items through out online giving system.
